Inserts

A printed magazine insert is an efficient and precise way of reaching the desired target group.

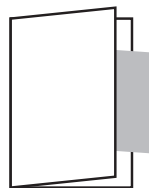

In addition to the entire edition, the insert can be targeted even further according to certain criteria.

If you combine a printed insert **with electronic distribution**, you can make sure that your message will reach its target audience. Magazine inserts can also be **mailed directly** using our address database. This enables you to focus on a specific target group with your printed material.

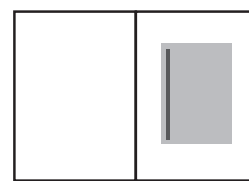

Entire edition price from 2 500 € + VAT.

We also have solutions for the manufacture and distribution of attachments and brochures. We are looking for the best option for your message on a customer basis.

Magazine inserts can be

Included as a loose insert

Attached with a drop of glue

Packaged in plastic with the journal

Note: Always ensure, well in advance, that the product to be inserted is suitable for such use.

Online ad formats

Koneporssi.com news website meets all modern network advertising needs and is also well suited as a platform for various native and content solutions.

Koneporssi.com ad viewability - how ads are seen - is high. The CTR (Click-through rate) of numerous online campaigns conducted has commendable levels. **The content of the machine exchange is of high quality, the visitors are engaged and the ads interests target groups.**

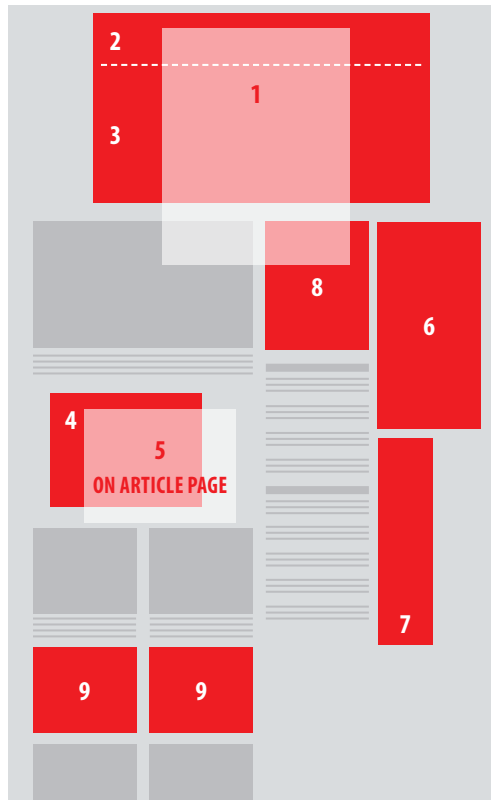

Ad inventory is limited, so we recommend booking a date for your campaign well in advance.

Materials and guidelines

- Finished materials must be submitted no later than 3 full business days before the start of the campaign. Materials to be produced must be delivered 5 full business days prior to the start of the campaign.
- Ads can be submitted as an image (jpg, gif, png & html5), or alternatively as a third-party tag. Front Page Control only as jpg, gif or png.
- The materials must also be accompanied with an URL to which the ad clicks will be directed. Each material can be provided with its own URL or tracking.

Ad format specific material instructions can be found at: <https://www.almamedia.fi/en/advertisers/guidelines-and-prices/>

Simo Marttala Oy:n KOMA-yhdistelmä: Täsmäase sahatavarakuljetuksiin

Suomen sanotaan elävän metsästä. Puusta jalostettu sahatavara onkin yksi merkittävimmistä vientituotteistamme, ja sitä kuljetetaan joka päivä satoja yhdistelmäkuormia sahoilta satamiin ja tietysti myös kotimaisille käyttäjille. Pihtiputaalaisella **Simo Marttalalla** on pitkä kokemus sahatavaran kuljettamisesta, eikä hän uutta yhdistelmää hankkiessaan tyytynyt tavanomaisiin ratkaisuihin.

Moni lukija muistaa varmasti sahatavaran kuljetuksesta ajan, jolloin muutama nippu lauttaa tai lankkua nostettiin auton lavalle, ja lähdettiin multa mutkitta liikenteeseen. Parhaimmillaan lavan reunassa oli tolpat, jotka yhdistettiin karhuketjulla kuorman yli toisiinsa ja saatiin aikaan kuormansidonta. Peittämistäkään ei nähty tarpeelliseksi.

Professionally produced news are read online and in printed media.
